Men & Women * 16 Years of Age+

- Great Wages + Incentive Pay
- Flexible Shifts (Full/Part Time)
- Work Available Every Day
- On-The-Job Training
- Safety Focused
- Clothing & Boot Allowance

Founded in 1910, ELLWOOD Group began as a producer of high-quality steel and has grown into a trusted maker of crankshafts used around the world. We build heavy-duty cranks that keep equipment running every day.

We start by melting and refining our own steel, then forge crankshafts to shape using powerful presses. From there, each crank is carefully machined and inspected to meet exact requirements. Our crankshafts are used in tractors, locomotives, pumps, compressors, ships, power generation equipment, and military vehicles like tanks.

For more than 100 years, ELLWOOD has been built on hard work, craftsmanship, and doing the job right—values we continue to pass on to the next generation.

Re-Roofing??

Check out the advantages of a metal roof...

Durability. Asphalt roofs can require re-roofing every 12-20 years. An asphalt roof starts to break down as soon as it's installed. Weather and ultraviolet light break down the oil infused paper or fiberglass. A metal roof coated with AZM coating will significantly outlast asphalt roofing.

Style. Metal roofs are now available in a wide variety of styles and colors allowing your home or structure to stand out. And a metal roof can be installed over the top of an existing asphalt roof.

Environmental. Metal roofs are good for the environment. Millions of pounds of asphalt shingles are dumped in landfills across the country. Metal roofing is often composed partially of recycled metals.

Ice Issues. If ice problems exit it's easier to add additional insulation to a metal roof than it is a comparable asphalt roof- Just ask us how!

**To see metal roofing simply stop by
Eastern States Metal Roofing at
7820 Route 474 in Panama, NY
or call 716-355-4374.**

FOR SALE
