REACTIV8 helps prevent shingle blow-offs in high winds.

✓ SAVES money instead of roof replacement.
✓ Restore shingle FLEXIBILITY
✓ Reinforces shingle strength and resistance to tearing.

Shingle Rejuvenation

• WATERPROOFS the shingle and RE-BONDS granular to the asphalt.
• REINFORCES the bonds between the layers of the shingles for durability.
• Dries clear (shingles look refreshed).
• EXTEND ROOF LIFE for 15+ years.

5 YEAR WARRANTY

REACTIV8
SHINGLE REJUVENATION

We also do touchups and repairs on your roof if needed before application. So...

Don't Replace it, REACTIV8 it!

- And More!

* Annual Percentage Rate (APR) is current as of this posting, includes a \$250.00 doc prep fee and assumes payment by auto-deduction from an MCSB deposit account. Your APR may be higher based on your credit qualifications. Offer requires a minimum of \$250,000.00 in new borrowings and is subject to meeting certain underwriting criteria such as owner occupancy, loan to value ratio, lien position and credit history. The maximum loan amount for this offer is \$250,000.00. Rate and terms may change at any time without notice. Other rates, terms, payments and loan amounts are available. A \$50,000.00 loan would require 60 monthly payments of \$955.57 each at an APR of 5.74%. Payment example does not include escrows for property related taxes and insurances that must be paid separately. Property insurance is required. Flood insurance may be required. 1 to 4 family owner occupied properties only. Not available for homes currently listed for sale, home purchases or manufactured housing. All accounts are subject to individual approval. Consult a tax advisor regarding deductibility of interest and charges.

DRAFT LEGAL NOTICE
Pursuant to the Noncoal Surface Mining Conservation and Reclamation Act, notice is hereby given that Wroblewski Sand & Gravel Inc., 12907 Half Moon Road, Wattsburg, PA 16442, has submitted an application to the Pennsylvania Department of Environmental Protection for the following bond release of SMP No. 25930305 (Wroblewski 2 Mine). This noncoal surface mining permit was issued March 30, 1994 and is located in Venango Township, Erie County. The site is located on the north and south sides of Half Moon Road near its intersection with State Route 89 on the properties of Angela Wroblewski and Mark Wroblewski.
The total bond on deposit is 27,100. State I and II total bond release of \$27,100 is requested for the entire permit 36.3 acre permit area. A total of 11.9 acres was mined and reclaimed. All mined areas were regraded and planted by 2016. Also, five acres of currently un-reclaimed area on the permit will be superseded by a new small noncoal permit.
Written comments, objections, or requests for informal conference or public hearing may be submitted to the PA Department of Environmental Protection, Knox District Office, PO Box 669 Knox, PA 16232 within thirty (30) days of the last (fourth) publication of this notice and must include the name, address and telephone number of the concerned person and a brief statement as to the nature of the objection.

**YOUR AD
COULD BE
HERE!!**

**The hidden "Secret" that keeps our
metal roofing looking great for decades**
*The Importance of Everlast Heatforming Can
Not be Overstated*
All you'll see is a brand new metal roof painted in a color that brings out the best in your home. But it's what's underneath the paint that makes this metal roof special. You see this metal roof was made using the Everlast Heat Forming process...
And why use the Everlast Heat Forming process to form metal roofing panels? Cracks allow moisture, which is often contaminated by atmospheric pollutants, to penetrate the protective surface of the coating, and cause the substrate to rust and corrode. In fact, the fracture in the paint can cause a painted panel to corrode at a faster rate than an unpainted panel. At the point where the paint film has been exposed electrochemical cells are established which will promote greater and faster corrosive attack. The result is accelerated corrosion at these areas because of their tendency to remain wet longer. The Heat Formed™ panel creates a more flexible paint system which is better able to withstand the rigors of the forming process. The paint coverage is not compromised and the result is an outstanding barrier protection. This barrier protection prevents corrosion by isolating the steel from the environment.
To see a sample of metal roofing that uses Heatform technology simply stop by Eastern States Metal Roofing at 7820 Route 474 in Panama, NY or call 716-355-4374.
